SmartZone LDFA Collaboration Report
Quarter 1, 2021

SmartZone LDFA Board Meeting
January 12, 2022
Grand Rapids Team - SG

Paul Moore, Director
Former tech startup founder, has worked alongside hundreds of startups. Launched multiple platforms that have drawn thousands of startup applicants. Serves on national Start Champions Network committees. Co-developed original venture portfolio 2012-2015 for Wakestream Ventures of WMI startups, now valued at $400,000,000. Networked into statewide and national ecosystems. Launched ArtPrize, an annual festival with an estimated $33 million net new economic impact for the community.

Jorge Gonzalez, Director
Raised over $500,000 annually since 2018 to run the SG100 initiative where Start Garden funds 100 ideas with $1,000 each and awards of $20,000 to 10 new businesses every year. Involved with the creation of the West Michigan Hispanic Chamber since 2005 as a volunteer, board member, Chair of the Board, and eventually as Executive Director. Created and managed the minority business incubator program at Linc providing subsidized space, technical assistance, and mentoring to over 20 minority business students. Created several mortgage, business loans, and deposit products to cater to racially marginalized communities.

Laurie Supinski, Director
Has worked with thousands of entrepreneurs in her 15 years in economic development. Started Newaygo SCORE chapter. Started Newaygo SBDC chapter. Started and managed Newaygo’s first co-working and startup incubator space, The Stream. Currently manages a caseload of 160 entrepreneurs that come through Start Garden platforms. Has successfully run her own small business for 25 years.

Darel Ross, Director
Since 2018 have raised over $1M to directly fund over 250 startup entrepreneurs, 65% from racially marginalized communities. Created a diverse leadership team and agile organization that in early 2020, established the COVID Comeback Fund, processed 430 applications, and provided emergency funding to 68 businesses - all in 10 days. Joined philanthropic, corporate and public sectors together as demonstrated by an Annual Budget of $2.2 million where each sector represents 1/3 of the funding. Secured over $67 million in HUD dollars and tax credits for community improvement efforts resulting in over 300 families increasing their assets, training over 600 residents, improving over 750 homes, creating over 120 full-time jobs.
Kyle McGregor, Ph.D. – Director of Health Innovations, Grand Rapids
Kyle is focused on bringing new ideas, innovative approaches, and person-centered technology into the communities that need them most. He has a passion for linking industry, academia, and healthcare to develop high impact projects that are capable of scaling to meet unmet needs. Before coming to Spartan Innovations, he was an Assistant Professor and Associate Director at Thomas Jefferson University and Main Line Health, where he focused on developing industry-community partnerships to bring new technological innovations to highly vulnerable populations.

Janet Wyllie – Director of Gateway and BAF, Grand Rapids
Innovative and quality-focused, Janet Wyllie comes to Spartan Innovations - Grand Rapids with 18+ years of executive experience, delivering value by developing impactful programs, managing complex projects from concept to completion, and working on high performing teams. Before Spartan Innovations, she worked as Director of Engagement with Michigan Capital Network where she managed four angel investment groups and the administration of three venture funds.

Bonnie Dawdy – Program Manager, Grand Rapids
In this role, Bonnie assists the Spartan Innovation’s team to accomplish our mission in the development and commercialization of Grand Rapids’ diverse technologies and create a “best in class” organization to exploit the regions high-tech high-growth discovery base and innovations. Her most recent position was as the Grants Program Manager for the International Business Innovation Association (InBIA). She has 15+ years working within the Grand Rapids entrepreneurial ecosystem with 10 of those years for the Grand Rapids Smart Zone.

Anum Mughal – Placemaking Manager
Anum Mughal is a community builder who advocates for entrepreneurship as a means for social change, uplifting the under-connected and underrepresented. As the placemaking manager at the MSU Foundation, she strives to build a connected, vibrant, and inclusive community connecting innovation, place, and action.

Christian McKenzie – Venture Associate
Chris began her career as a retail buyer. She has worked for startups and tech companies that support the retail industry, including Facebook, Inc. and Pear. She began applying her passion for emerging brands to investing venture funding into startups. She was formerly a venture fellow at Unshackled Ventures and NYU’s Innovation Venture Fund.

AZ Solutions (EL)

Eric Petersen, Ph.D.
Information Technology
Cross Equipment (EL)
Programs

Business Accelerator Fund
- The Business Accelerator Fund (BAF) is used toward the delivery of specialized services to assist advanced technology companies.
- Accelerators in Michigan’s SmartZone network work with service providers to help advance participating companies’ paths to commercialization, success, and economic impact for the state.
- Specialized services include activities such as development of financial models or marketing plans, technology validation/product testing, and regulatory consulting.
- Eligible businesses can receive up to $50,000 worth of services.

Entrepreneur In Residence Program
- EIR’s take an active role in the companies they support as CEO, president, COO, or business development officer.
- Currently 12 EIR roles that are dedicated to startups.
- EIR’s are paid a stipend + take equity in these companies.
- Goal is for EIRs to support the startup for 12 – 18 months before running the company independent.
- An EIR can also serve as an advisory group, sponsored startups, and other organizations that our ecosystem supports.
- Start Garden’s EIR focuses more on integrating the local tech startup community and connecting to resources.
- Spartan Innovation’s EIR team focuses more on specialized skills for certain technologies.
Conquer Accelerator

Conquer Accelerator emphasizes smart planning and growth, empowering cohorts with extensive mentorship from an experienced bench of professionals. Over ten weeks, Conquer teams follow a tailored curriculum, designed to help both startups and established companies overcome their challenges.

- **Investment** of $20,000 in exchange for a convertible note
- **Space** to innovate and work collaboratively
- **Mentorship** from experts in marketing, sales, supply chain, manufacturing, and more
- **Resources** including legal advice, access to a broad MSU alumni network, market data, and development assistance

Red Cedar Ventures has invested $200,000 directly in Conquer startup companies in the last 2 years to support this program.

Conquer Accelerator Diversity in Entrepreneurship (CADE)

In 2020, the Conquer Accelerator Grand Rapids launched its first virtual internship program – Conquer Accelerator Diversity in Entrepreneurship! Each intern collaborated with teams and shared their skills in fields like marketing, consulting, sales, and more.
